Results-driven **Senior Flutter & .NET Developer** with 6+ years of development experience building and deploying high-performance cross-platform mobile apps and robust backend systems. Expert in **Flutter (iOS/Android/TV)**, state management, widget animations, offline data storage, and **.NET full-stack solutions**. Proven ability to lead projects and deliver bug-free production apps for tourism, education, fintech, and restaurant sectors. Currently pursuing **MSc Data Science & AI** at Middlesex University Dubai. **Team player** with excellent **communication skills**, highly self-motivated and able to work independently.

SKILLS

Mobile Development: Flutter (Dart), Bloc, GetX, Provider, Riverpod, Animations, Offline Storage and Syncing

Backend & Web: .NET, Node.js, Python, Django, Django REST Framework, HTML, CSS, JavaScript, Vue.js, Angular

Tools & Others: RESTful APIs & Databases, Git & Debugging, Pub.dev Packages, Mason Bricks, Data Science & ML Libraries, R programming, Automated Deployment using Codemagic, efficient AI-assisted development workflows

EXPERIENCE

Technical Lead & Senior Flutter Engineer | Crave Global, Dubai, UAE

Apr 2026 – Present

- Stepped in to rescue a stalled product (**CRAVE** – Dating & Dining App) after the original development vendor missed deadlines by months, negotiating handover of the codebase and taking full ownership of delivery
- Re-architected a poorly structured codebase into a stable, scalable application, fixing core issues and building out the essential features (UGC uploading, reliable chat system, etc.) the product was missing
- Elevated the user experience with polished, reusable UI components, transforming the app's look and feel to a launch-ready standard, within a month
- Built out and led the engineering team, recruiting a backend developer to deliver the Node.js and AWS cloud backend, secure multi-provider authentication, and a moderated media pipeline

Senior Flutter & .NET Developer | Riddhasoft Pvt Ltd

Nov 2023 – Nov 2025

- Led full-stack development of [Kasthamandap](#) restaurant POS system (Flutter + .NET), delivering the project 15 days ahead of the original deadline
- Built and published 'EV Fast Charger' app ([Play Store](#) & [App Store](#)), facilitating real-time, location-based EV charging stations with payment integration, that crossed more than 1,000+ downloads within a month
- Developed and launched 'Gurukul SCMS', the all-in-one school management app designed for parents, students, and teachers, with 30+ intuitive features, published to [Play Store](#) and [App Store](#)
- Engineered an Entrance Management System for Khotang Halesi Temple with a robust offline/online ticketing system, reducing entry wait times by approximately 30%
- Architected '[Barju Taal](#)' ticketing app with multi-activity support, offline storage and data synchronization
- Automated CI/CD pipelines with Codemagic for Flutter apps, enabling one-click builds, automated testing, and direct publishing to App Store and Play Store, reducing manual deployment effort by 80%

Senior Flutter Developer | Podamide Nepal Pvt Ltd

Jun 2023 – Sep 2023

- Spearheaded feature development and resolved 50+ critical bugs for multinational utility apps Piiink & Piiink Merchant, exceeding client expectations
- Ensured 100% on-time deployment to [Play Store](#) & [App Store](#) within a high-pressure, fast-paced environment

Flutter Developer (Remote) | Shrig Solutions Pvt Ltd

Apr 2023 – May 2023

- Built a complete end-to-end social media application on a contract basis within a 2-month timeframe
- Published custom Mason bricks ([provider template](#), [bloc template](#)) on [brickhub.dev](#), reducing boilerplate code generation time by 40% for future projects

Flutter Developer | Riddhasoft Pvt Ltd

Dec 2021 – Apr 2023

- Contributed to the international Fintech app [KiiPay](#), focusing on secure payment solutions
- Contributed to [Moneyfex](#), a globally trusted international money transfer app
- Developed and published Android TV applications for high-profile clients, including KFC Nepal and various banking institutions
- Successfully delivered 5+ production-ready apps, including [Broiler Plus](#), [Hamro Hajiri](#), and Sajha Courier
- Authored and released 3 localization packages ([JSON CREATOR](#), [JSON TRANSLATOR](#) and [LOCALIZATION HELPER](#)) on [pub.dev](#) to support multi-language app environments

Python / Django Developer | Aayulogic Pvt Ltd

Apr 2019 – Jul 2019

- Worked with the development team of the '[Real HR Soft](#)' web app that included bug fixing and addition of new features, while being praised as the most innovative junior developer

Customer Support Representative | Sparrow Pay Pvt Ltd

Feb 2018 – Jun 2018

- Provided help to customers' technical queries related to the app, which helped in significant user retention

Office Administrator & Marketing Staff | Sparrow Pay Pvt Ltd

Jan 2018 – Feb 2018

- Coordinated office activities and operations to secure maximum efficiency and workflow

EDUCATION

MSc Data Science and Artificial Intelligence

Middlesex University Dubai, UAE | Jan 2026 – Present (Currently enrolled, Year 1, Part Time: 6:30 PM – 9:30 PM)

Bachelor of Business Studies (BBS)

Morgan International College, Kathmandu, Nepal | Dec 2014 – Jan 2018
